

# Pennchlor SP 250®

NADA 138-934 APPROVED BY FDA

## PRODUCT DESCRIPTION

Pharmgate's Pennchlor SP 250® is a triple feed grade antibiotic combination. Each pound contains chlortetracycline: 10 grams, sulfamethazine: 10 grams and penicillin: 5 grams. Pennchlor SP 250® has been formulated with improved carriers to increase flowability and blending characteristics. Pennchlor SP 250® is highly effective in treatment of various diseases and for an increased rate of weight gain and improved feed efficiency.

## PRODUCT ADVANTAGES

- Triple combination to provide a broader spectrum of activity than a single drug product.
- Can be used for disease prevention during times of stress.
- Can be used in starter formulations.
- Manufactured and quality-controlled at Pharmgate's manufacturing facility according to FDA cGMP requirements
- Safe - when used according to label directions.
- Color-coded bags for easy identification.

## CLEARANCES

Pennchlor SP 250® is classified as a Type B Medicated Feed Category II drug product. Finished feeds manufactured from Pennchlor SP 250® do not require a medicated feed mill license. Pennchlor SP 250® is approved for use according to the label directions on the label.

## SPECIES APPROVED

Swine (weighing up to 75 pounds)

## PRODUCT DESCRIPTION

Pennchlor SP 250® contains chlortetracycline calcium complex equivalent to chlortetracycline HCl 10 grams per lb., sulfamethazine 10 grams per lb. and penicillin from procaine penicillin 5 grams per lb.

**Ingredients** - Roughage products, magnesium-mica, Chlortetracycline, calcium carbonate, mineral oil, sulfamethazine and penicillin (from procaine penicillin).

**Bulk Density** - Approximately 41 lb./cu. ft.

**Packaging** - Pennchlor SP 250® is available in 50 pound bags. *Bags are fuchsia color-coded in gusset area.*

*Take time to observe label directions.*

chlortetracycline, sulfamethazine, penicillin

## Type B Medicated Feed

FOR USE IN THE MANUFACTURE OF SWINE FEEDS

### ACTIVE DRUG INGREDIENTS:

Chlortetracycline Calcium Complex equivalent to Chlortetracycline HCl	10 g per lb
Sulfamethazine	2.2% (10 g/lb)
Penicillin (from procaine penicillin)	5 g per lb

### GUARANTEED ANALYSIS:

Crude Protein, not less than	8.0%
Crude Fat, not less than	0.1%
Crude Fiber, not more than	60%

### INGREDIENTS:

Roughage Products, Magnesium-Mica, Chlortetracycline, Calcium Carbonate, Mineral Oil, Sulfamethazine, Penicillin (from Procaine Penicillin).

### INDICATIONS:

For reduction of the incidence of cervical abscesses, treatment of bacterial swine enteritis (salmonellosis or necrotic enteritis caused by *Salmonella choleraesuis* and vibronic dysentery); prevention of these diseases during times of stress; maintenance of weight gains in the presence of atrophic rhinitis; growth promotion and increased feed efficiency in swine weighing up to 75 pounds.

### MIXING DIRECTIONS

Mix at the rate of 10 pounds (4.54 kg) per ton (907.2 kg) with part of the feed ingredients to make a preblend. Add the remainder of the ingredients to give a final concentration of 100 g chlortetracycline, 100 g sulfamethazine and 50 g penicillin per ton of Type C feed and mix thoroughly.

**WARNING: WITHDRAW 15 DAYS PRIOR TO SLAUGHTER**
