
SECTION 1: IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier:

Substance name: **Dicalcium Phosphate Feed Grade**
EINECS No.: 231-837-1
REACH Registration No.: Dicalcium Phosphate is exempted from obligations of Regulation (EC) No. 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Feed material
Catalogue No.: 11.3.3
CAS No.: 7758-23-8

1.2. Relevant identified uses of the substance and uses advised against

Relevant identified uses: Used as/for-feed material
Uses advised against: No uses advised against have been identified.

1.3. Details of the supplier of the safety data sheet

Supplier (manufacturer): AB "LIFOSA"
Street address: Juodkiskio 50,
Postcode/Place : LT-57502, Kedainiai
Telephone number: +370 347 66483
E-mail: info@lifosa.com

1.4. Emergency telephone number

Toxicity control and information office in Vilnius
Phone: (+ 370-5) 236 20 52, (+370) 687 53378
Opening hours: 24 h per day
Other comments: Lithuanian language of phone service

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance

2.1.1. Classification according to Regulation (EC) No 1272/2008 [CLP/GHS]

Not classified.

2.1.2. Classification according to Directive 67/548/EEC

Not classified.

2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008 [CLP/GHS]:

Not labelled.

2.3. Other hazards

Potential health effect:

Eyes: May cause irritation or burning.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

CAS	Chemical name	%	EINECS
7758-23-8	Calcium bis(dihydrogenorthophosphate)	> 85	231-837- 1
-	Other non-hazardous inorganic impurities	< 15	-

SECTION 4: FIRST AID MEASURES

4.1. Description of first aid measures**4.1.1. First aid instructions****- General notes:**

Consult a physician if symptoms persist. First aiders should be protected adequately (*see section 8*). Remove affected person from further exposure.

- Following inhalation:

Remove to the fresh air. If not breathing give artificial respiration. If breathing is difficult, give oxygen.

- Following skin contact:

Immediately wash skin with soap and water for at least 15 minutes.

- Following eye contact:

Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.

- Following ingestion:

Wash out mouth with water.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing media:**- Suitable extinguishing media:**

Use media that is appropriate to treat surrounding fire.

- Unsuitable extinguishing media:

Not known.

- Special exposure hazards arising from the substance itself, combustion products, resulting gases:

During a fire, irritating gasses may be generated by thermal decomposition or combustion.

- Special protective equipment/or fire-fighters:

Use firefighting procedure that is appropriate to treat surrounding fire. All fire-fighters should use self-contained breathing apparatus and full fire-fighting turn-out gear.

5.2. Special hazards arising from the substance or mixture**- Hazardous combustion products:**

Substance is not combustible.

5.3. Advice for fire-fighters

During a fire, irritating gasses may be generated by thermal decomposition or combustion. Wear self-contained breathing apparatus. In case of violent hazardous effect: Wear a special tightly sealed suit.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

Ventilate area of leak or spill. Avoid causing dust. Wear appropriate personal protective equipment.

6.2. Environmental precautions

Do not allow concentrated solutions to enter drainage system, surface ground water.

6.3. Methods and material for containment and cleaning up

Collect mechanically, sweep up the product and collect it for further use or reprocessing. Vacuuming or wet sweeping may be used to avoid dust dispersal. Sweep or vacuum up and place in appropriate closed container. Small amounts of residue may be flushed to sewer with plenty of water.

6.4. Additional information

No dangerous materials are released.

Note: see section 1 -for emergency contact, 8 -for personal protective equipment and section 13 -for waste disposal.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling

7.1.1 Protective measures

Use only with adequate ventilation or wear appropriate respirator. Prevent spillage, avoid rising dust.

7.1.2 Advice on general occupational hygiene

Put on appropriate personal protective equipment. Avoid contact with skin, eyes and clothing. Use normal personal hygiene and housekeeping. Avoid breathing dust. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.

Note: For additional information see section 8.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures and storage conditions

Store the product in cool, dry area, away from the sunlight. Product is slightly hygroscopic and should be stored in a dry area to prevent moisture pick up and caking. Product packed in polythene bags should not exceed the temperature of 55°C.

Packaging materials

Bulk. Sack: paper, polyethylene.

Requirements for storage rooms and vessels

Storage rooms and vessels should meet health and the hygiene requirements. Store in closed, clean and free from pests and other risk factors, warehouses and containers. Protect from moisture, precipitation. Keep separately from other chemical substances.

Incompatible materials:

Not specified.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

National exposure limits:

8-hour TWA, mg/m ³	15-min STEL, mg/m ³
10 mg/mj (dust)	-

8.2. Exposure controls

8.2.1. Appropriate engineering controls

Ventilate as necessary to eliminate dust from the work area and maintain concentrations below the exposure limit. Ensure that eyewash stations and safety showers are close to the workstation location. *Note: For additional information see section 7.*

*8.2.2. Personal protection equipment**Eye and face protection:*

Chemical goggles to protect eyes from dust (EN 166:2001).

Skin protection:

Body protection: Laboratory coat or protective suit. *Hand protection:* PVC, rubber or neoprene gloves. *Respiratory protection:*

In case of insufficient ventilation use approved respirators (EN 141 or EN 405).

8.2.3. Environmental exposure controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Note: for additional information see section 6.

8.2.4. Thermal hazards

Substance is not combustible. There are no special thermal hazards.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

Appearance:	dry, white or grey, scentless, acidulous taste powder.
Odour:	odourless
pH:	2-3,3
Melting point:	> 200 °C
Initial boiling point/ range:	> 100 °C (decomposes)
Flash point:	Not applicable for inorganic substances.
Flammability:	Not flammable.
Vapour pressure (at 20 °C):	not applicable for solid substances
Bulk density:	750 kg/m ³ - 1000 kg/m ³
Solubility (is) (at 20 °C):	in water: 18 g/l, soluble in diluted acid
Oxidizing properties:	Dicalcium Phosphate does not meet the criteria as an oxidizer.

SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity

Product is non-reactive in normal conditions of use.

10.2. Chemical stability

The product is stable under normal conditions. *See section 7.2*

10.3. Possibility of hazardous reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

10.4. Conditions to avoid

See section 7.2

10.5. Incompatible materials

Not specified

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

In case of fire: *see section 5.*

SECTION 11: TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects***III*** *Acute toxicity*

LOS0 (oral) rat: 17500 mg/kg

LOS0 (oral) mouse: 15250 mg/kg

III *Skin corrosion/irritation*

Not irritating to skin.

III *Serious eye damage/irritation*

Prolonged exposure to dust of Monocalcium Phosphate may irritate the eyes.

III *Respiratory or skin sensitization*

Not sensitive to respiratory ways or skin.

SECTION 12: ECOLOGICAL INFORMATION

12.1. Toxicity

Dicalcium Phosphate is not toxic for environment. Product does not produce toxic compounds either with the substances presents in the environment, nor in combination with water.

SECTION 13: DISPOSAL CONSIDERATIONS

R11 Waste treatment methods

R11 Product / Packaging disposal: Waste codes / waste designations according to EWC / AVV
EWC: Not Listed.

R12 Waste treatment options

Dispose of in accordance with all federal, state and local regulations.

SECTION 14: TRANSPORT INFORMATION

ADR: Non-hazardous for road transport.
RID: Non-hazardous for rail road transport.
IMDG: Non-hazardous for sea transport.
IATA: Non-hazardous for air transport.

SECTION 15: REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance*EU regulations:*

- Directive 2002/32/EC of the European Parliament and of the Council of 7 May 2002 on undesirable substances in animal feed.
Regulation (EC) No 183/2005 of the European Parliament and of the Council of 12 January 2005 laying down requirements for feed hygiene.
- Regulation (EC) No 767/2009 of the European Parliament and of the Council of 13 July 2009 on the placing on the market and use of feed, amending European Parliament and Council Regulation (EC) No 1831/2003 and repealing Council Directive 79/373/EEC, Commission Directive 80/511/EEC, Council Directives 82/471/EEC, 83/228/EEC, 93/74/EEC, 93/113/EC and 96/25/EC and Commission Decision 2004/217/EC.
Commission regulation (EU) No 277/2012 of 28 March 2012 amending Annexes I and II to Directive 2002/32/EC of the European Parliament and of the Council as regards maximum levels and action thresholds for dioxins and polychlorinated biphenyls.
Commission Regulation (EU) No 744/2012 of 16 August 2012 amending Annexes I and II to Directive 2002/32/EC of the European Parliament and of the Council as regards maximum levels for arsenic, fluorine, lead, mercury, endosulfan, dioxins, Ambrosia spp., diclazuril and lasalocid A sodium and action thresholds for dioxins.
- Commission Regulation (EU) No 68/2013 of 16 January 2013 on the Catalogue of feed materials.

National legislation (Lithuania):

Hygienic standards HN 23:2011 „Threshold limit values of professional exposure of chemical substances and common requirements for measuring and assessment of exposure" (Approved by Minister of Health and the Minister of Social Security and Labour of Lithuanian Republic in 01/09/2011, Order No. V-824/AI-389)

- Rules of provision of employers with personal protective equipment (Approved by Minister of Social Safety and Labour of Lithuanian Republic in 26 of November, 2007. Order No.: A 1-331).

Other legislation of restrictions and prohibitions:

Rules of packages and packages waste disposal (Approved by Minister of Environment of Lithuanian Republic in 27 of July 2002, Order No.: 348 with subsequent amendments).

- Rules of waste disposal (Approved by Minister of Environment of Lithuanian Republic in 30 of December 2003, Order No.: 722 with subsequent amendments).

SECTION 16: OTHER INFORMATION

161. Indication of changes

Version 01 of Safety data sheet, prepared according EC regulation (EC) Nr. 453/2010.

162. Key literature references and sources for data

Company standard JST 161110455-25:2013 Dicalcium Phosphate. Specifications. CRC handbook of chemistry and physics, 89¹ edition. 2008-2009, p.46. <http://chem.sis.nlm.nih.gov/chemidplus/jsp/common/Toxicity.jsp>

163. Abbreviations and acronyms

ADR - European Agreement concerning the International Carriage of Dangerous Goods by Road
C&L - Classification and Labelling
CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008
CAS - Chemical Abstracts Service number
CMR - Carcinogen, Mutagen, or Reproductive Toxicant
CSA - Chemical Safety Assessment
CSR - Chemical Safety Report
DNEL - Derived No Effect Level
EINECS - European Inventory of Existing Commercial Substances
EN - European Standard
EU - European Union
EWC - European Waste Catalogue
GHS - Globally Harmonized System
IATA - International Air Transport Association
IMDG - International Maritime Dangerous Goods
IUCLID - International Uniform Chemical Information Database
IUPAC - International Union for Pure Applied Chemistry
LC50 - Lethal Concentration to 50 % of a test population
LOSO - Lethal Dose to 50% of a test population (Median Lethal Dose)
OEL - Occupational Exposure Limit
PBT - Persistent, Bioaccumulative and Toxic substance
PNEC(s) - Predicted No Effect Concentration(s)
PPE - Personal Protection Equipment
REACH - Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006
RID - Regulations concerning the International Carriage of Dangerous Goods by Rail
RMM - Risk Management Measure
SCBA - Self-Contained Breathing Apparatus
SOS - Safety Data Sheet
vPvB - Very Persistent and Very Bioaccumulative

Disclaimer: The information in this Safety Data Sheet shall be available to all people whose work is related with the chemical substance described therein. The information provided corresponds with our knowledge and is used to describe the chemical product with regards to occupational health and safety, and environmental aspects. The information of the Safety Data Sheet will be supplemented in case of new evidence of impact of the chemical substance to health and environment, or new preventive measures to eliminate or avoid hazard. The information provided for in the Safety Data Sheet does not describe other special properties of the chemical product.
